GRAND TREASURER'S REPORT

Most Excellent and Companions, it is my pleasure to present the Royal Arch, Jubilee Scholarship Fund, and Centennial Fund financial statements for the year ended and as at the 30th June 2016.

The accounts have all been audited by V E Comp Roger Sinclair CA, PGStdB whose unqualified audit reports are attached.

Royal Arch: There was a surplus for the 2016 year of \$6,893, compared to budget \$8,340, this is a decrease of \$1,447.

Referring to the Balance Sheet, the Accumulated Funds increased by \$6,893, as a result of the year's surplus, to \$139,927. (LY \$133,034).

The 2017-year is now projected to have a loss of \$(2,276) compared to the original budget surplus of \$1,620. The income currently looks to be on budget, whereas expenditure has increases mainly in the Convocation, postage, and the new proposed web site, costs. During the year Grand Council in order to try to stem the declining trend of Royal Arch Masonry initiated a conference to ascertain future possible leaders, so in order to do this a budget of \$21,000 was approved by Council and as this was expenditure for the future wellbeing of the Arch, that this come out of our Capital Reserves, hence I have shown this as a separate item on the Budget Schedule so as not to confuse the position with the normal financial management.

The 2018 budget has a small surplus of \$3,675. To get to this it has been found that the Administration Fee needs to be increased by about 10% or \$5 to \$50 pa. The last time there was an increase was in 2014 when it was \$43 increased to \$45. Every endeavour has been made to control the expenditure but the declining membership from 1,385 in 2014 to 1,076 of 309 a 22% reduction makes it very difficult to hold the current fee.

Jubilee Scholarship: The Accounts show a deficit of \$2,823 as a result of the decrease in members contributions over grants paid which were based on the greater income the previous year. Note the contributions from members were \$13,434.

2010 - \$23,185
2011 - \$19,523
2012 - \$19,226
2013 - \$16,969 + \$4,126
2014 - \$13,456
2015 - \$15,282
2016 - \$13,434

Up to December 2016 the receipts are 10% down on the previous year. The funds available for grants in the 2017 year as per Clause 4 of the rules amount to \$19,278 (Last year \$22,815).

Centennial Fund: Grants made in the last year amount to \$17,200. The available funds

for grants now amount to \$55,546. At the time of completing this report there is a further commitment for 2017 of approximately \$17,000 to the Malagahan Institute of Medical Research. Total funds have remained at \$430,000 as a result of income being the same as expenditure, but there will be some decrease with the coming 2017 expenditure.

In an endeavour to increase the annual income of the two trusts, from the very small current interest rates from the banks, at the beginning of the 2016/17-year half the capital funds of each Trust were transferred to J B Were (NZ) Pty Ltd (the same financial advisers of Grand Lodge) to be invested in prime equities. This new venture has only been going for 6 months at the time of preparing these reports hence there is nothing to report at this stage except to say we are making some progress. The Trustees will report fully on this next year.

In accordance with Rule 5.3 (c) of the Constitution and Laws I move the appointment of V E Comp R Sinclair, PGStdB, Chartered Accountant, as Auditor/Reviewer for the 2016-2017 Accounts of Grand Chapter.

INDEPENDENT AUDITOR'S REPORT

To the Members of SUPREME GRAND ROYAL ARCH CHAPTER OF NEW ZEALAND

Report on the Financial Statements

I have audited the financial statements of Supreme Grand Royal Arch Chapter of New Zealand on pages 1 to 3, which comprise the balance sheet as at 30 June 2016, and the income statement, statement of changes in trust funds for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management Council's Responsibility for the Financial Statements

The Management Council is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting practice in New Zealand and for such internal control as the Management Council determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with International Standards on Auditing (New Zealand). Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates, as well as evaluating the overall presentation of the financial statements.

INDEPENDENT AUDITOR'S REPORT

To the Members of SUPREME GRAND ROYAL ARCH CHAPTER OF NEW ZEALAND – THE ROYAL ARCH JUBILEE MEMORIAL SCHOLARSHIP FUND

Report on the Financial Statements

I have audited the financial statements of The Royal Arch Jubilee Memorial Scholarship Fund on pages 1 to 2, which comprise the balance sheet as at 30 June 2016, and the income statement, statement of changes in trust funds for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management Council's Responsibility for the Financial Statements

The Management Council is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting practice in New Zealand and for such internal control as the Management Council determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with International Standards on Auditing (New Zealand). Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Other than in my capacity as a Chapter member I have no other relationship with, or interests in, The Royal Arch Jubilee Memorial Scholarship Fund.

Opinion

In my opinion, the financial statements on pages 1 to 2 present fairly, in all material respects, the financial position of The Royal Arch Jubilee Memorial Scholarship Fund as at 30 June 2016 and of its financial performance for the year then ended in accordance with generally accepted accounting practice in New Zealand.

GRAND SCRIBE EZRA REPORT

In the Report presented to Grand Chapter in March 2016, reference was made to the range of work being undertaken by Management Council on behalf of the Order.

The new initiatives referred to include matters related to operational management aspects; to membership matters; to the introduction of a new Degree and to communications.

These are now reported in detail.

Operational Management aspects- with the appointment of V E Comp D P Williams, PZ as Grand Scribe Nehemiah, significant progress has been made in:

- a) finalizing a 40Year Jewel/5Year Bar notification system from within the database. This will enable Chapters to be notified well in advance of their Companions' eligibility for jewels and bars. Scribes will be notified from Grand Scribe Ezra's office and will be able to obtain the jewel/bar and arrange the appropriate presentation occasion in ample time. By this means, the former occurrences of being late (sometimes years late) with awards, will be removed.
- b) Cryptic Council membership data will be incorporated within the SGRACNZ database to allow for useful data to be recorded by means of some program design work due for completion by March 2017.

Membership - it is well known that the SGRACNZ Constitution requires continued financial membership of a Craft Lodge as a prerequisite for membership. It is also well known that the decline in Craft membership levels and the resultant closure of Lodges, impacts directly on Royal Arch membership.

Management Council is well seized of the importance of membership retention as a measure to help stem the flow away from freemasonry and has, as a result, established The Chapter of Transition No 110.

The function of this Chapter is to act as a "holding pen" for those companions who do not conform to the membership qualification as set out in the Constitution (Rule 15.1(b) in particular – membership of a Craft Lodge), or whose Chapter has become Dormant or handed in its Charter, or whose special circumstances warrant, so that they can retain membership of Royal Arch Masonry.

Membership of the Chapter is obtained following written application; it is annually reviewed and assessed. The Administration Fee and a further \$5 per annum is payable by members. It is a sincere attempt to cater for Royal Arch masons "in limbo"; for those who may need to take some "time out" from freemasonry for personal or professional reasons or for those senior Royal Arch masons for whom meetings are no longer physically possible to attend, yet who desire to retain their connection to the Order.

The ByLaws of The Chapter of Transition No 110 have been issued to all Chapter Scribes and are available on the website.

The Order of the Silver Trowel – Management Council obtained a warrant authorising The Grand Council of Cryptic Masonry of NZ to confer the degree of The Order of the Silver Trowel on qualified Cryptic Masons, within the Council of the Silver Trowel No 111. The inaugural Degree Ceremony in NZ will take place in March 2017 and it is intended that it be carried out annually thereafter, at Grand Convocations.

Membership of the Council No 111 is by invitation only, and is restricted to Past or current

Thrice Illustrious Masters of a Cryptic Council recognised by, or in amity with, the Grand Council of Cryptic Masons of NZ. It is hoped that the introduction of this Degree will engender continued interest in Cryptic Masonry in New Zealand.

Leadership Training – Future Leader Training – the investment in the Future.

During 2016, a weekend residential Future Leader Training course took place in Wellington. Designed and facilitated by a professional agency, it was attended by 12 participants selected from around NZ. The group underwent intensive training, group workshops, team-building exercises and at the conclusion made a formal presentation of their ideas and collective suggestions for the benefit of Royal Arch Masonry to the First Grand Principal.

This cost of this initial course was funded from capital of Grand Chapter, but future – (though not necessarily annual) similar training events will need to be funded from SGRACNZ income and thus the necessary budgetary provisions will need to be made.

Management Council is committed to the continuation of Leadership Training in the Order. A Long Term Planning Group, comprising both “future leaders” and experienced Officers of Grand Chapter will also be established, with the purpose of assisting Management Council.

- Induction Seminars – Leadership training has been continued with a further Induction Seminar for Grand Superintendents-elect and Grand Directors of Ceremonies- elect, held in Christchurch in 2016. It is generally considered that these one-day seminars that were commenced in 2014, assist incoming leaders in becoming well-equipped for their tasks and are of value.

Communications – Email – in an effort to ensure that communications within Royal Arch Masonry are as effective as possible, information is now sent not only to Chapter Scribes and Cryptic Council Recorders for onwards dissemination to their members, but also direct to all those Royal Arch masons who have agreed to their email address being recorded on a database for mail outs.

Whilst a request was made for all Chapters and Councils to furnish listings of their member email addresses for the database, to date only 77% (833 of 1086 members) are recorded. But of those 833, disappointingly, less than half bother to open the messages sent.

- SGRACNZ Website – complaints about the SGRACNZ website have been made to me for some considerable time. These complaints have covered matters relating to topicality, content, relevance or membership details amongst other things. But my repeated requests for topical newsworthy stories and photos, or directions given as to how to update membership data to remedy the situation, have been treated with virtual ignore.

It should be recorded that the SGRACNZ website has been devised, and for years maintained and managed by R E Comp Gary Kerkin, PGLeC, who has expended vast amounts of time and energy, alone and without recompense, to provide the service. It reflects very poorly on those Royal Arch masons who have been quick to criticize- whilst not at all pro-active in assisting to ameliorate the situation. My personal debt of gratitude to R E Comp Kerkin is recorded here- too many Royal Arch masons are unaware of the immense “behind the scenes” contribution he makes.

Management Council has recognised that to have an effective website for the Order, the move from the dedicated service of an enthusiastic, committed volunteer individual to another scenario must take place. To this end, the SGRACNZ website will, by March 2017, be subsumed

into a separate section of the GLNZ website, hosted there and managed by several Grand Chapter officers.

Special Convocation 2016 – a Special Convocation of Grand Chapter was called under Rule 9.2 of the Constitution by the Grand Principals. It was held in the Lodge Room, Wellington Freemasons’ Centre, Wellesley Boutique Hotel, Maginnity St., Wellington on 18 November 2016. Attended by 34 Companions it was called to receive the nomination of R E Comp R B White, PGSupt, as First Grand Principal 2017-2019, from ME Comp G J Davies, GZ on behalf of the Committee of Past First Grand Principals.
A secret ballot proved unanimous and R E Comp R B White was declared First Grand Principal 2017-2019, subject to his installation.

It is a privilege to be a Freemason - it is fun to be a Royal Arch Mason - it is a special honour to serve as a Grand Scribe Ezra.
I would like to thank not only the Chapter Scribes and Cryptic Council Recorders in particular for their help, kindness and tolerance during the last 5 years we have worked together, but also thank the Grand Superintendents and importantly the hardworking members of Management Council, the Grand Treasurer and the Grand Registrar, all of whom have helped me tremendously in what has been an invaluable and rewarding experience.
I trust R E Comp Alan Hart, as Grand Scribe Ezra will receive the same cooperation during his term.

Membership – as at 30 June 2016 there were 52 active Royal Arch Chapters and 18 Cryptic Councils in existence. The loss of 114 Chapter members – or 10.07% of our 2015 membership, is again approximately twice the level of membership gain. Additionally, several Chapters are now at a membership threshold where viability is marginal.

FIRST GRAND PRINCIPAL'S REPORT

Over the past 12 months, I have had the pleasure of seeing our Order advance on many fronts. Almost all of these are the work of Management Council, and those that are not, have been well supported by that group, both as a group, and individually.

For that reason, it is appropriate that I begin this report by expressing my deep gratitude to my predecessor, and now outgoing Chairman of the Council, M E Comp Les Borrell, for his hard work, wisdom and friendship over the past two years, and by honouring his five years of service to Grand Chapter at this level. It is a significant commitment which he has discharged superbly. Les, thank you to you and Olga from me personally, and on behalf of all Companions for your outstanding service and leadership.

I also thank the other members of the Council, who all brought different strengths and skills to the table with good will and energy. Thank you for everything you have done, at the meetings and back home, where the workload really bites. Thank you for your friendship and advice. I include R E Comp Jim Heron, the Grand Treasurer, in those remarks: the role of Grand Treasurer is not a member of the Council but his contribution is crucial. Jim has been a friend for a long time, and his service and commitment to the very best financial management is invaluable.

In the interests of the best use of our time here today, and sticking to the schedule, I will not review the specifics of Management Council's activities in this report, as the portfolio reports which are published in the papers, and will be spoken to shortly, fulfil that function in detail. Suffice it to say I am proud to have been part of the Council's achievements.

In terms of my own activities, highlights have included:

- carrying out the Rededication Ceremony to celebrate the centenary of Bedford Chapter No 39 in Waipukurau
- the continuing exchange of visits with the Rose Croix
- attendance at the Royal Arch/Cryptic/Mark Heads of Order meeting in Brisbane, and the installation of a new GZ for Queensland the following day
- representing this Order at the installation of the new Grand Master of the Craft, M W Bro Mark Winger, in Wellington
- the introduction of the Order of the Silver Trowel into Cryptic Masonry in New Zealand.

I would also like to make special mention of two Chapter visits, both of which in different ways captured the very best of this Order: to William Ferguson Massey Chapter No 61 in Pukekohe, a most enjoyable evening with representation from every Chapter in the Auckland District, and just last week, to St Andrew Chapter No 90 in Invercargill. The latter was an outstanding night which demonstrated that this Order can shine brightly by its efforts and dedication in a community even when numbers are down. I extend my special thanks for such rewarding visits to the Grand Superintendents concerned, R E Comps Arthur Batty and Ferg McNaughton.

I came into office with several objectives, largely matched to the Craft's Strategic Direction 2013-2018. Two of them were specifically derived from two of the Seven Pillars of the Craft document.

Community Engagement: Our support for and relationship with the White Ribbon campaign has progressed well in the Wellington District. We have had four meetings in conjunction with Craft Lodges, some attended by partners and friends. The first, in Masterton, attracted very positive front-page local newspaper coverage. I am very grateful to the Grand Superintendent, RE Comp Ken McQueen who, with his wife Irene, has done an exceptional job of organising these meetings and promoting the initiative.

Leadership: We have held a residential Future Leaders workshop with professional facilitation for 11 of our most promising members – a considerable investment in the future. The results and feedback from all points of the compass were better than we hoped for and now we must ensure that we keep the ball rolling. It is likely that some of those trained will form a Long-Range Planning Group to be set up as one of the first projects of the new Management Council.

Strategic Plan: I indicated that we would be drawing up a Strategic Plan to match the Craft's Strategic Direction 2013-2018 and that was signed off at the July Management Council meeting. It is a "living document" and will be reviewed each year by Management Council. The Depute First Grand Principal, R E Comp Bob Cresswell, took the lead on this work and produced an excellent document. Bob is another who has been a friend for a very long time and it was a great pleasure to have him as Depute during my term.

Grand Lodge: The Liaison Committee met mid-2015 and we attended the November 2015, and then December 2016 meetings of the Board of General Purposes. I was disappointed that,

whilst there has been no lack of good will or friendly communication, there was no Liaison Committee meeting between those two Board meetings, but I am also pleased to report that there has already been such a meeting in 2017 - just two weeks ago, in fact; and we now have a plan for regular such meetings in 2017. As you will see this afternoon, the Craft's top three officers plus the Divisional Grand Master for Southern are attending the Installation.

I have one more matter to address, and that is to acknowledge the outstanding service to the Order of R E Comp Robert Jaray, and the support of Shona, in the role of Grand Scribe Ezra for the past five years. It ranges across every facet of the Order and pretty much every hour of the day and night. I am quite sure that most if not all of you know the truth of this and have been direct beneficiaries. To those that haven't, rest assured, you are equally in his debt as his many efforts and activities have benefited every single member. Thank you, Robert, and thank you Shona too.

Finally, thank you to all Companions for the privilege of holding this role. My final duty will be to install Brian White this afternoon; the ritual for that emphasises how fortunate any GZ is to have been so honoured. I am grateful that our Constitution provides that I go straight on to the role of Chairman, and that will give me a chance to continue contributing, as well as supporting Brian to the best of my ability. I wish him well, and look forward to working with him.

Geoff Davies

First Grand Principal 2015-2017

DEPUTE FIRST GRAND PRINCIPAL – GOVERNANCE AND RITUAL

There has been no revision of rituals during the year and no rituals have been republished. New ritual has been supplied for use when the Order of the Silver Trowel is introduced to New Zealand at the Grand Convocation in Christchurch. and for subsequent occasions. A Strategic Plan for the Royal Arch was presented to and adopted by the Management Council. Resulting from the failure of Grand Chapter to elect a new First Grand Principal-elect in Auckland and the request from the Past First Grand Principals to review the Constitutional arrangements, Management Council has conducted a major review to find a new method of selecting the best team of Grand Principals to lead Royal Arch in New Zealand. Constitutional Amendments to achieve this will be presented to Grand Chapter. Constitutional Amendments to provide for a “Chapter of Transition” to enable unattached Companions to remain associated with Royal Arch Masonry in New Zealand and the introduction of the Order of the Silver Trowel to Cryptic Masonry, together with several minor changes mainly to achieve consistency, will be proposed by Management Council. The Trustees of Grand Chapter met with the Management Council in Auckland and amendments to Rule 5.2 Trustees of Grand Chapter clarify the method of appointment of Trustees and require them to provide a Report to Grand Chapter on the performance of the Investments of Grand Chapter.

R E Comp R M Cresswell, Depute First Grand Principal

SECOND GRAND PRINCIPAL – EDUCATION AND MEMBERSHIP

Companions, it has been my honour to serve you in the office of 2nd Grand Principal; to have made incremental advances in my assigned portfolios, to have contributed to governance of the Order via the Management Council and to have listened attentively to your concerns.

When I first became aware of an intending promotion late in 2014 I wasted no time in establishing a small Divisional Advisory Committee. When the Convocation 2015 occurred we were already active in our consideration of new initiatives that would benefit the Order and Companions. I want to register a heartfelt thanks to my Committee for their help and advice, their recognition that I could not achieve much on my own in the allocated timeframe, and for their encouragement. I commend the concept of Divisional Committees to all incoming Grand Principals as a means of engaging Companions and receiving a rewarding diversity of views.

So, what is now the state of play?

1. TRAVELLING ROAD SHOW

The presence of a Royal Arch Desk at Craft Divisional Conferences in 2015 and 2016 was a useful innovation that should be continued. The purpose of this Road Show is to promote the Order to the people who are the decision-makers in the Craft and who can influence rank-and-file freemasons – our future members!

A prominent Grand Lodge Officer recently asked me; *Just what is it that the Royal Arch wants from the Craft?* Let me say in response; that our fundamental need is for acknowledgement by the Craft. It is imperative that the Craft recognize that we are equal partners in ancient freemasonry, that it is not sufficient for the Craft to only pay “lip service” to the Rule 71 in its

Constitution, that the Craft would do well to embrace Royal Arch Masonry with a similar commitment English Constitution freemasons demonstrate and, finally, that our futures are inextricably linked and essential for survival of our ideals.

2. CEREMONIALS FOR POTENTIAL NEW MEMBERS

The two optional ceremonials have been an outstanding success in attracting new members in those Districts where ceremonials have been organized. I can only therefore commend them and encourage all Grand Superintendents to actively encourage Chapters to engage with them. Grand Superintendents will need to organize a competent team of ritualists under the guidance of the Divisional Grand Lecturer or his nominee.

3. PROLOGUES, EPILOGUES AND TEST QUESTIONS

In Chapters that I have visited the feedback is that they are a useful educational tool that should be given a chance to “bed in” and become part of the degree ceremonials. It is acknowledged that there is an incremental time commitment and Chapters have found ways to embrace the initiative in practice.

At the time of writing this Report the Committee is drafting prologues, epilogues and test questions for the side Orders within the Royal Arch masonry; namely Royal Ark Mariner and Red Cross of Babylon Degrees and these will be presented at the March 2017 meeting of Management Council for approval. Those similar documents for the Cryptic Degrees will not be ready by then and consequently will be left to my successor to pursue at his pleasure.

Companions need to be aware that the prologues and epilogues should become integral to the ceremonials in as much as the content is instructive to the candidates and a reminder to members. The test questions were always intended to form an informal basis for discussion between the candidate and his mentor or nominator.

4. ROYAL ARCH MEMBERSHIP “TOOL BOX”

This “tool box” article was always intended to be advisory for those Chapters seeking new ideas and initiatives, to try and engender better attendance and enjoyment of Companions. I commend it to all Companions but its uptake is entirely within the discretion and motivation of Chapters.

5. CHAPTER REPRESENTATIVES TO LODGES “TOOL BOX”

This “tool box” article was always intended to bring Chapters and their ‘feeder’ Lodges into a closer communication, and to attenuate the level of alertness within Chapters to opportunities to approach candidates in an appropriate manner and environment. This initiative, coupled with the initiative of Companions wearing their “RA Jewels” at Craft meetings should engender productive discussion.

6. PLANNING INTRODUCTION AND BOOKLETS – CHAPTER AND DISTRICT “TOOL BOX”

We have reformatted Craft Planning Booklets for Chapters and Districts to assist with the setting of goals and objectives. The motivation is contained within a separate Introductory Article with comment summarized from Divisional Craft forums, as it is equally applicable to the Royal Arch. The initiative is commended to all Chapters who regard forward planning as an essential element of their future development, growth and enjoyment of the Order.

IN CONCLUSION

To the Northern Division Grand Superintendents who have officially received me at Chapter/Council installations, and to 1st Principals/Thrice Illustrious Masters who have received me on numerous occasions, I express my profound gratitude. I wish all of you well for the future.

R E Comp K W Dalzell, Second Grand Principal

CHAIRMAN – MANAGEMENT COUNCIL - CEREMONIALS AND PROTOCOLS

As I will, at the forthcoming Annual Convocation, have completed my five-year formal membership of the Management Council this report will of necessity have something of a “valedictory” element to it.

It has been an absolute privilege – and a great pleasure - to not only have had the honour to serve the Order as First Grand Principal, but to also have been a member of the Council for seven of the last eight years – the last two as your Chairman. I have continually marvelled at the enthusiasm and dedication of those Companions I have had as co-workers in caring for and promoting the welfare of our beautiful Order. I shall miss sharing their individual and collective wisdom so generously offered at all times, and always with the intent and purpose of the enhancement of Royal Arch Masonry throughout New Zealand.

I must also acknowledge what a joy it has been to have had the close working and travelling relationship with our soon to be “PAST” Grand Scribe Ezra – R E Comp Robert Jaray. Thank you so much Robert for a very special five years!

Companions – since last July the Council have been regularly sending “Briefing Papers” or “Newsletters” to some eight hundred Royal Arch Companions and informing all of those for whom we have an email address of the activities affecting the welfare of the Order – outlining our plans for the Order – our progress therein etc – and you have all had the opportunity to peruse the material you have been supplied with for this Convocation.

The Council are dedicated to the principle of finding “The Best Man for the Job” as all such opportunities arise and with the problem still of diminishing numbers ask you to strive to view Grand Chapter Office as “opportunities to serve” – NOT AS a reward for longevity of Chapter membership. If we are to have a viable and sustainable future we must have the highest quality we can provide in our administrative personnel.

The philosophical and procedural initiatives being put before you at this Convocation are not mischievous or necessarily controversial or provocative - but are a sincere and serious programme for implementing some changes to enhance our future as a viable organisation. Please vote on them responsibly. Many hours of thought and discussion have gone in to their preparation and what you are asked to vote on has the full support of ALL Council members.

In terms of our ongoing and developing relationship with our Grand Lodge Brethren the 2016 - 2017 year has been pretty disappointing in as much as our Liaison Committee did not have any meeting with our Craft Lodge counterparts until we met with the full Board of General

Purposes in early December. Pleasingly the Board showed a real interest and expressed the intent of setting at least three and possibly four meeting dates in 2017. To this end at the time of preparing this report arrangements are in hand for a meeting in February. We are also delighted to advise that our Grand Lodge is to be significantly represented at our Convocation in March and to attend the Installation of R E Comp Brian White as our First Grand Principal.

I offer my best wishes to our incoming Council members and trust that their forthcoming experiences will be cordial – satisfying – and hugely successful in preserving the welfare of the Supreme Grand Royal Arch Chapter of New Zealand.

CENTENNIAL AWARD COMMITTEE REPORT

Most Excellent, as Chairman of the Centennial Award Committee, it is my pleasure to present the committee's annual report. The terms of my fellow committee members, Most Excellent Companion Norman Richardson, Past First Grand Principal, and Right Excellent Companion Allan Davies, Past Depute First Grand Principal, have now expired, and I would like to acknowledge their good work for the committee over the past years, and thank them for the support they have given to me during my time as chairman. The committee is again grateful to Right Excellent Companion Jim Heron, Grand Treasurer, for his stewardship, and all the companions for their support of the fund.

This year was the second of a two-year award cycle, and the awardee, Dr Robert Weinkove, a researcher at the Malaghan Institute of Medical Research and clinical haematologist at Wellington Hospital, has continued to use his award to further research into the area of immune responses to a new class of anti-cancer vaccines. Dr Weinkove outlined this work in his presentation to the 2016 Grand Convocation.

The committee realizes that in the past, members have not been kept informed about the Royal Arch Masonic Centennial Award and the researchers to whom the award has been made. The committee is at present in the process of finalizing a recommendation for Management Council for the 2017-19 award, and once the award has been confirmed, chapters will be notified and details will be posted on the Royal Arch web site. Information will also be submitted for publication in the New Zealand Freemason

Most Excellent, I move that the report be adopted.

Clause (iii) 2. The date for the closing of nomination from the Division will need to be changed to 31st of October.

This will need to be altered in 7.2 (a) (i).

This will give time for a PGZ's meeting to be called and allow time for part (iii) to be implemented if necessary.

7.2 (b) (i) will need to be altered to allow a PGZ's meeting earlier than the Annual Convocation.

ADDRESS FROM CENTENNIAL AWARD RECIPIENT

“Assessing the genes involved in immune responses to a new class of anti-cancer vaccines.”

The Malaghan Institute was founded in 1979 as the Wellington Cancer and Medical Research Institute. It was renamed in 1986 after Len and Ann Malaghan, who founded the Tip Top Ice Cream company, and still benefits from the Chairmanship of their son, Graham Malaghan. Today, the Malaghan Institute is an independent non-profit biomedical research institute, with a focus on immune system research in cancer and allergic diseases.

Today I shall provide a brief timeline of cancer treatments, discuss the growing role of immune treatments (immunotherapy) for cancer, the vaccine platform we are working on at the Malaghan Institute, the Nanostring studies proposed within this Fellowship, a timeline for our proposed studies, and concluding remarks.

Surgery remains the most frequently-employed curative treatment for cancers. In the words of John Hunter, a renowned 18th Century Scottish surgeon and, interestingly, a contemporary of Edward Jenner who invented vaccination, “If the tumour is moveable... there is no impropriety in removing it”. However, as long ago as 50 AD, the Roman encyclopaedias, Aulus Cornelius Celsus, recognised in his work documenting ancient Roman medical practices, *De Medicina*, that, “After excision, even when a scar has formed, none the less the disease has returned, and caused death”.

Following the discovery of X-rays by Wilhelm Roentgen, Francis H Williams published a book about the therapeutic role of X-rays in 1901, marking the beginning of radiation oncology as a field. The first patient treated with linear accelerator external beam radiotherapy, pictured here, was the child Gordon Isaacs, treated for an eye tumour, retinoblastoma, by Dr Henry Kaplan.

Dr Sidney Faber, after whom the world-famous Dana Faber Cancer Institute was named, was an American paediatrician and pathologist. With the initial aim of finding analogues of the mineral folic acid to treat anaemia, he noted remarkable remissions of childhood leukaemia. This started the field of chemotherapy. He noted that, “aminopterin has a marked effect upon the leukaemia bone marrow... and very probably on leukaemia deposits in the viscera as well”.

Immunotherapy, the prevention of treatment of disease by stimulating an immune response, has been in the headlines recently. Reports of an immunotherapy combination shrinking “60% of melanomas” were followed this year by reports of Pharmacia, the New Zealand pharmaceutical purchasing agency, declining to fund these effective, but very expensive, agents. Immunotherapy, however, is not new. As long ago as the late 19th century, the late William Coley noticed that when he injected live bacteria into patients’ tumours, the tumours sometimes shrank, and in some cases, were cured. In 1934, he reported that, “the combined toxins of erysipelas and prodigious may sometimes play a significant role in preventing or retarding malignant recurrence or metastases; occasionally they may be curative in hopelessly inoperable neoplasms”. His treatment, which preceded the antibiotic era, was limited by the infections he caused, although in latter years he achieved similar results by killing the bacteria

before injection. His treatments almost certainly acted by stimulating an immune response against the cancer cells.

As a practising haematologist, I am very conscious of the effect that the immune system can have on a cancer. We conduct immune system transplants, also called 'bone marrow transplants' to treat leukaemia's and lymphomas. Sometimes we see dramatic tumour regressions. In this example [shows a series of PET scans], you can see a large tumour of a man with a mantle cell lymphoma regressing, then disappearing completely, during the 6 months after a bone marrow transplant. However, bone marrow transplantation is not without toxicities - we cannot always control the immune responses we generate, and sometimes patients succumb to 'graft versus host disease' - a condition in which the new immune system recognises the patient's skin, gut, liver or other organs as foreign, and causes damage to the patient. Can we harness the immune system in a more targeted fashion?

The Malaghan Institute has a history of undertaking clinical trials of immune therapies: in 2004, we undertook our first trial of a dendritic cell vaccine therapy for lymphoma, and since then have conducted trials in glioblastoma and melanoma. Our latest trial is currently in phase II, and will recruit up to 40 patients with advanced melanoma.

The dendritic cell technology our current trial uses requires creating a personalised vaccine from each patient's blood cells. This approach appears to be safe, and the trial could go on to suggest it is effective, but a limitation is that creating personalised vaccines might not be feasible on a larger scale. For this reason, we are working with chemists at the Ferrier Institute, in particular Professor Gavin Painter, pictured, to generate fully synthetic vaccines that might achieve the same effect, but without having to make each vaccine from an individual patient's blood cells. Our preliminary results in models of cancer suggest that this can work.

My own team tests these new vaccines using human blood cells. We take blood from patients and from healthy volunteers, then separate the white cells from the red cells and the plasma. Our white blood cells include cells called lymphocytes, which are the key to our immune system's ability to learn to recognise infectious agents, or cancerous cells, as foreign. Under the microscope, most lymphocytes appear very similar. But this belies an enormous variability between lymphocytes: each one carries a unique, or near-unique, receptor on its surface. We cannot see these directly, but we can detect them by applying fluorescent dyes to the cells, then passing the cells one by one through a device called a 'flow cytometer'. This works a bit like a blood counter at your hospital or community laboratory - it shines light on each cell as it passes, and the particular fluorescent characteristics of each labelled cell are detected, and can be analysed using computer software. We can analyse 12 or more different markers on each cell at once, and this allows us to detect rare cancer-specific immune cells.

The flow cytometry technology is very important for our work, but is laborious. Each of the 12 or so parameters we analyse requires special reagents, and time to test and validate their ability to detect the right marker. There are 30,000 genes in our body, including hundreds of genes linked to immune function, so we may be missing important features of the responses to our vaccines. This is where the Nanostring technology comes in. Nanostring uses probes that bind tightly to the genetic code (messenger RNA) that tells our cells which protein to make. The more copies of each message are present, the more protein the cell will

manufacture. Each Nanostring probe is 'bar coded' with a different sequence of fluorescent tags. The probes are applied, the unbound probes are washed away, and a special reader takes images of the probes that have bound. By automatically detecting and counting individual probes, the reader can say how many of each genetic message is present in the sample. The benefit of this technology is that it can measure more than 700 characteristics in each sample simultaneously - far more than the 12 or so we can reliably measure using our current techniques.

Our workflow will be as follows: we take the blood cells, stimulate them with our new vaccines, and analyse the cancer-reactive white blood cells using flow cytometry as normal. We can then separate out the cancer-reactive cells using a cell sorting machine. After this we can conduct the Nanostring to interrogate the effect of our vaccines in exquisite detail. We can analyse these results and select the characteristics of interest to confirm again using flow cytometry. Finally, we hope that these results will help show how our vaccines work, and importantly might suggest which vaccines could be most useful for which diseases.

Our studies of these vaccines are already underway in the laboratory. We currently plan toxicology studies of our new vaccine conjugates this year or next, with a view to clinical trials of these 'next-generation' vaccines in 2017 or 2018, when our current melanoma clinical trial is due to finish.

To summarise, immune therapies are becoming a routine part of cancer treatments worldwide - we shall hear much more about this field. Cancer vaccine trials are underway internationally, and here in New Zealand. At the Malaghan Institute, in conjunction with the Ferrier Institute, we are developing synthetic vaccines for use in future cancer immunotherapy trials. The Royal Arch Masonic Centennial Award is supporting this endeavour.

I would emphasise that awards such as this are important to us and are appreciated. In the current era, national research grants are highly competitive, and applications are more likely to succeed if we can present preliminary data that prove our planned experiments are technically feasible. This award will allow us access and troubleshoot a new technology to improve the quality of our research. We hope then to be able to leverage your support for successful grant applications to support our future work.

Thank you very much for your support, and for your time today.

Dr Robert Weinkove
Clinical Research Fellow, Malaghan Institute of Medical Research
Consultant Haematologist, Capital & Coast District Health Board.

ANNUAL CONVOCATIONS

2018 – R E Comp R Gregory, Grand Superintendent, Ruapehu-Taranaki District advised that the Proclamation Convocation would be held at the Devon Hotel, New Plymouth, 2,3 and 4 March.

2019 – R E Comp J R Evered, Grand Superintendent, Hauraki District advised that the Installation Convocation would be held in Hamilton 8,9 and 10 March.

After a collection in aid of the Centennial Award Fund totalling \$ 413.00 was made, the First Grand Principal presented R E Comp R S Jaray, Grand Scribe Ezra with a First Grand Principal's Award and declared the Business Session closed.

THE ROYAL ARCH "FORUM

3March 2016

M E Comp L.V. Borrell PGZ who welcomed the Companions to the Forum, held in the Savoy West Room, Rydges Latimer Christchurch Hotel, opened the meeting. He explained that the Forum would consist of an open Question and Answer session, a presentation of the updated website by V E Comp D Williams, GSN and a Presentation from V E Comp G S Martin, PZ on the Future Leaders' Group initiative.

In his presentation on the website and communications generally, V E Comp Williams stressed the need for topical news and pictures as input for the website. The use of Twitter and Facebook applications to enhance the Grand Master's "Speak Up" campaign was canvassed prior to a short YouTube presentation on the Supreme Grand Royal Arch Chapter's website update. V E Comp Williams advised that user authorisations for individuals, Chapter Scribes and Cryptic Council Recorders would be issued in due course. In response to suggestions from the floor, he agreed that User Manuals, training on the website (at Convocations) and a "Help Button" concept were all matters to be developed. There was general agreement that the updated website would more appropriately meet our current and future communications challenges.

V E Comp G Martin presented a most informative brief discussion on his experience during the Future Leader's Group weekend, its outcomes and the relevant matters both he and R E Comp F McNaughton, G Supt, Southland determined were important for Royal Arch Masonry in the future.

FIRST GRAND PRINCIPAL'S ADDRESS

Speech by First Grand Principal M E Comp R B White
Installation Ceremony 4th March 2017

Most Worshipful Grand Master, Guests and Companions

On January 5th, 1861, eight Companions of the Irish Royal Arch Chapter No. 348 met in Auckland. This was our first recorded meeting in New Zealand. On the 7th of July 1891, there was a meeting at Parliament Buildings Wellington where it was decided to create the New Zealand Constitution – this then happened on the 3rd of January 1892. One hundred and twenty-five years ago.

Since then we have seen Masonry grow in numbers until the 1980's when there was the start of a gradual decline. Where to from here?

I believe that the answer lies within our organisation. We are all Masons and proud of our association and we need everyone to know about us.

Most Worshipful brother Mark Winger the Grand Master, at his Installation used the words "Speak Up for Masonry".

Companions, that includes us, we the Companions of the Royal Arch are also Craft Masons and we need to help our Craft Lodges to grow. Grand Master you have our pledge that we will do our best for our Lodges.

Companions our focus over the next two years while I am First Grand Principal will be not to think that something has to be done to help numbers but in fact doing something about it. The Royal Arch membership is less than 20 per cent of the total Craft Mason membership, hence we have a ready supply of new members.

Did you know that 88 per cent of Masters, Wardens and Directors of Ceremonies are Royal Arch Mason's and this does not include Secretaries and Treasurer's? Grand Master this is proof of our commitment to the Craft Lodges.

Companions we are having very good meetings with Grand Lodge and I believe our discussions will lead to joint statements from us both for the betterment of relations between our two orders.

Now to Innovation – as from this weekend there will be a new Chapter, called the Chapter of Transition Number 110. This Chapter has been set up to cater and keep Companions who live in remote areas where there is no Lodge or Chapter, and are unable to attend. We are losing good members this way and this allow them to keep their Royal Arch membership. The details of this initiative will be sent out to Chapters in the near future.

Another innovation is the Council of the Silver Trowel Number 111, which is attached to the Cryptic Council. In November last year, I attended and went through the ceremony in

Melbourne. This was one of the most amazing Ceremonies I have had the privilege to go through. This year we had a team from Australia, who performed the Ceremony for us on Friday, and we are indebted to them for coming to New Zealand. In New Plymouth next year there will be another ceremony this time performed by the New Zealand Companions. This will occur each year at the Convocations.

Companions the 21st June 2016, saw the passing of one of our favourite sons. Barry McLaggan. Someone that we all looked up to and respected and in my case a very close mentor and confidant. Barry was Grand Master 2006 to 2008 and our First Grand Principal 2001 to 2002. A Mason of the highest calibre. Barry's death ended a remarkable career in Masonry. He realised the challenges we faced in the years to come and we needed to listen to what he had to say. Sadly, we realise, what he was saying was correct, that we had major challenges ahead for membership and viability as an organisation surviving in today's technology world. Barry also realised that we needed to have fun in our Lodges. And that enjoyment created a happy environment.

My own particular memory of the brand of humour from Barry, was in the early 1980's and he arrived at my Lodge Te Kauwhata 364 late to a meeting that had already started. The Tyler informed the inner guard that there was a visitor requesting admission. On enquiring who sought admission, the Inner Guard was told, "That Worshipful Brother Trout from Lodge Taupo was seeking admission." The Te Kauwhata Brethren were surprised, as they hadn't heard of Worshipful Brother Trout before, anyway he was admitted. Through the port-hole a frozen trout came through and landed on the floor of the Lodge, followed by Barry. You can imagine the members of Te Kauwhata thought it a great joke, everyone was laughing except for the District Grand Master who had made an unofficial visit. At this point Barry figured that this was the end of his Masonic career. History proves that it wasn't. Even as First Grand Principal he enjoyed a good laugh.

You may be aware that when ME Companion Davies installed me, he retired to the empty chair at the end of the front row. When ME Companion Norman Richardson installed his successor, and retired to his allotted chair, it was gone. Barry had hidden it behind the curtains ME Companion Richardson tells me that all he saw was Barry looking straight ahead and trying not to laugh.

In light of Barry's remarkable Masonic career, the Management Committee has added another award to the Jubilee Memorial Scholarship Fund. And I am pleased to announce that it will be called The Barry McLaggan Scholarship Award. In line with discussions with Jill McLaggan and family, this Award will be given to the student who when they reapply after having been a recipient of a Jubilee Memorial Scholarship Fund, have received the best results from the previous year's Scholarships. Unfortunately, Jill wasn't able to be with us today, but Barry's son, VE Comp Jim McLaggan is with us today.

The White Ribbon Campaign, which ME Companion Davies asked us to support in his term of office, has been an over-whelming success. White Ribbon is an exciting initiative tackling this countries poor domestic violence record. Violence destroys families and can cause children of violence to follow the same destructive path. It affects one in three women, not a good record for a country like ours. Companions I ask that you continue to support this.

ME Companion Davies, you have guided us for two years, and work constraints have made life difficult for you, never the less you have placed your own mark on our order, which will continue as you take over the role as Chairman of the Management Council. And to have you and your invaluable experience for another two years, will be a great advantage to me and the order.

We live in a society that is changing, socially and economically, but has this made it harder for us to get new members, maybe, maybe not. All we need to do is change our thinking and make Masonry more attractive as an organisation for good men to join and we need to include their families.

Companions in closing, I ask once again to support your Lodge, make a difference and make sure that you enjoy your Masonry.

Fraternal Greetings were then conveyed on behalf of the Grand Master and the Grand Lodge of Antient and Accepted Masons of New Zealand by M W Bro Winger, Grand Master.

Fraternal Greetings were conveyed from Visiting Delegations and on behalf of all Grand Representatives of Sister Constitutions.

During the singing of the final Ode, "*The day Thou gavest, Lord, is ended*" a collection in aid of the Jubilee Memorial Scholarship Fund totalling \$352.00 was made.

The First Grand Principal, M E Comp R B White then closed Grand Chapter in Ample Form.

The Installation Banquet was held at 7pm.
