

Enhancing Fellowship In The Lodge - 25 Tools For Success

Research shows that 'Lodge' is not just about attending the regular meeting and an associated ceremony – it's far more than that. It's about a regular and varied programme of social activities; it's about fun and stimulating refectory; it's about fostering internal benevolence; it's about great mentoring; it's about involving spouses and partners in an appropriate manner, and so much more.

The Pillars team has placed many tools in the Freemasons On-Line Toolbox to provide lodges and brethren resources on a vast range of topics. In particular there are numerous tools which have a fellowship theme, so many that we have published a booklet called:

'Enhancing Fellowship In Your Lodge – 25 Tools For Success'.

Keep an eye out for this publication and ensure the brethren in your lodge get copies. Not all brethren are internet literate and this publication is great way to share the Freemasons Toolbox with them.

To order copies for your lodge email mem.chair@freemasons.co.nz now.
