27 April 2010

Please do not reply to this newsletter. See the bottom of this e-mail for the Grand Secretary's contact information.

In this Issue

- Email DANGER!

Email DANGER!

We have just been made aware that our members may have been receiving a fake email that could potentially cause serious problems and security issues to your computer system and to all those in your address book.

The email IS NOT FROM US!

The email is detailed below:

Subject: freemasons.co.nz account notification

Dear Customer,

This e-mail was send by freemasons.co.nz to notify you that we have temporarily prevented access to your account.

We have reasons to beleive that your account may have been accessed by someone else. Please run this file and Follow instructions:

<http://emailsupport.zxq.net/{document}.zip>

(C) freemasons.co.nz

If you were to click on the link in that email it would download a trojan or virus document to your computer.

If you have a current and up-to-date virus software program on your computer it would

probably catch this before it became a problem. **HOWEVER**, you should **ALWAYS READ** any link before you click on it.

With computers, prevention is paramount. An unprotected system allows the easy spread of these infections!

Always remember to keep your virus program UP-TO-DATE. Even the best virus protection software is useless if you don't keep it updated.

Here are links to recommended virus protection software programs:

MICROSOFT - this is free!!

http://www.microsoft.com/security_essentials/

McAFEE - free and purchase

<http://home.mcafee.com/Store/FreeTrial.aspx>

AVG - free and purchase

<http://www.avg.com.au/home/>

SYMANTEC / Norton - purchase

<http://buy.norton.com/estore/mf/landingProductFeatures>

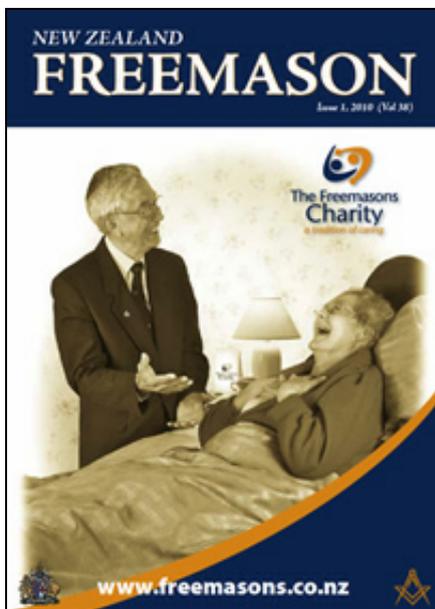

Many of these programs can also be purchased at your local computer retailer.

Thank you.
