2009 Royal Society of New Zealand Distinguished Speaker: Professor Robert Kirshner

Professor Robert Kirshner, from Harvard University, will be visiting New Zealand in November as the Royal Society of New Zealand Distinguished Speaker. Professor Kirshner is one of the world's leading astronomers and a renowned public speaker. He has been described as a 'raconteur of exceptional eloquence' and 'one of the liveliest and most amusing lecturers in the world of astronomer'. His scientific research has resulted in significant and surprising breakthroughs on the nature of our universe.

The title of his lecture, 'Einstein's Blunder Undone', refers to the extraordinary discovery by him and his colleagues that the expansion of the universe is accelerating under the influence of a mysterious dark energy. Professor Kirshner will explain this astonishing new picture of the universe in a lively, richly illustrated presentation, drawing on his own first-hand account of the discovery.

10 November: Auckland, Lecture Theatre 260-098, Owen G Glenn Building, Business School, 12 Grafton Road

11 November: Wellington, Rutherford House Lecture Theatre 1, Pipitea Campus, Bunny Street

12 November: Christchurch, College Hall (formerly Great Hall), Arts Centre, corner Worcester Blvd and Rolleston Ave
