Where is the Colour & Printing Information

As many readers will want to print the pages that follow almost no colour will be used in these publications to save ink.

To print only the page(s) that you want always use the File/Print Menu and choose either "Current Page" or specify the print range by clicking in the Pages option and then typing the first and last pages separated by a dash (-)

If you don't make a choice all the pages will print using up ink and paper you probably don't need to use.
